FOREWORD

Cryptocurrencies were created as an opposite tool to regular banking system. In general understanding, cryptocurrencies are equal to such words as freedom and anonymity. In any case, exactly this idea was promoted by my father, Satoshi Nakamoto, when he launched the bitcoin network in 2009.

Seeing how the world is moving along the path of regulating cryptocurrencies, my father, Satoshi Nakamoto, has gone into the shadows. He became disillusioned with many crypto enthusiasts who betrayed the true values of cryptocurrencies. **They are freedom, anonymity and decentralization.**

Okay, okay, okay! I will try to sound less official. **Hello guys and girls! My name is Blablatashi Nakamoto.** I am the sole daughter of Satoshi Nakamoto. You will never believe me, but it's your right. I don't set a goal to convince everyone. To be honest, I have another important mission.

I would like to make a gift to my father by uniting all the crypto community worldwide. Why?

COVID times showed everyone that people are separated by absolutely everything (e.g. different income levels, skin color, religion, gender, ethnicity, and even geolocation). The only way to tackle these issues is to provide something which could be close to everyone's heart. What could it be? The answer is as simple as the popular game in which we played in our childhood. You know this game. It's rock-paper-scissors.

We use innovative blockchain technology in our game. Blockchain means no borders, full financial freedom along with absolute transparency. Satoshi blessed me, his daughter, to launch this game.

While other GameFi projects make a bet on collectibles and NFTs in their games, we make a bet on mass adoption and ease of understanding.

Some experts believe BLABLAGAME.io will become one of most successful GameFi projects of 2024.

Satoshi is watching us. He blessed the BlaBlaGame.io blockchain project. You can support us by taking part in BlaBlaGame (BLA) token sale. The offer is highly limited.

BLABLAGAME RULES

- ★ **Rock, paper, scissors** is a popular children's game known worldwide.
- ★ The users can play the game making deposits in popular cryptocurrencies
- ★ Only real users play the game
- ★ The user creates a game and chooses one of the three objects (rock, paper or scissors).
- ★ Another user can see the list of created games by other users, and play any of them. He also chooses one of three objects (rock, paper, or scissors).
- ★ **Rock beats Scissors** because a rock can destroy a pair of scissors. **Paper beats Rock** because paper can cover the Rock. **Scissors beats Paper** because they're designed to cut paper.
- ★ The winner of the game is rewarded with the total amount of the game minus 3% fee from the total of the game. The total amount of the game consists from bid amount of the first player plus bid amount of the second player. Note, if the game currency is BlaBlaGame token (BLA), the total charged fee for the winner is lower – 2.2%.
- ★ The charged fee is partially allocated to the daily and monthly bank of bonuses, daily cashback from the system to the players, referral payments and the reward to the BlaBlaGame.io platform.
- ★ If both players chose the same object in the game, then both of them play a draw. The funds will be returned to the balances of both players.
- ★ All the created games are protected with the SHA-256 algorithm (Secure Hash Algorithm) which was designed by the United States National Security Agency (NSA) and first published in 2001. The algorithm guarantees that the object of the created game cannot be compromised by anyone. Moreover, no one including owners of BlaBlaGame.io has an access to the object of created games as all of them are stored on the server in encrypted form.

BLABLAGAME RATING SYSTEM

Level	How to achieve?		Cashback for the win in the game	Referral reward from multilevel referral system for winning games by user's referral			Token sale referral reward in BLA tokens	Access to user's chat and premium video tutorials sections	Priority in customer support service	Access to VIP Telegram club
	Number of BLA tokens	Number of games won		Level 1	Level 2	Level 3				
★ Beginner	0	0	0.05%	0.15%	0.07%	0.06%	5%	–	–	–
★ Amateur	1,000	100	0.10%	0.20%	0.09%	0.07%	6%	+	–	–

🚀 To the Moon	1,000,000	100,000	0.50%	0.60%	0.25%	0.15%	14%	+	+	+

To get to the next rating level, you need to have a certain number of BLA tokens and win a certain number of games in Rock-Paper-Scissors game.

Cashback for the win in the game is calculated from the total amount of the game (The total amount of the game is the sum of the creator's bid and his rival one.)

Referral rewards for the win in the games of your referrals are calculated from the total amount of the game that was won by your referral(s). The rewards are paid out for the user's referrals of the first, second and third levels only.

The reward for the purchase of BLA-tokens by your referrals is paid out in BLA tokens. The reward rate in BLA tokens depend on your rating level in BlaBlaGame system.

7 REASONS TO INVEST IN BLA TOKEN

Depending on the user's rating in BlaBlaGame (see the table above), users can earn higher cashback rewards for win in each Rock-Paper-Scissors game, higher referral rewards from multilevel referral system for win in the games by user's referrals, advanced token sale referral rewards (limited offer).

BlaBlaGame is part of global GameFi industry which is currently hyping in the cryptocurrency market.

BLA token has its own deflationary model. 10% of the income by the BlaBlaGame system will be allocated to buy the tokens back on the trades with further token burns. The fewer tokens in circulation supply, the higher the price of the BLA token.

BLA token is issued on Binance Smart Chain network. It guarantees competitable fees and high transactions confirmation speed.

BLA token will be security audited before the listing. The audit will be conducted by Certik (or another company).

World media keep BlaBlaGame project in focus as a promising GameFi start-up 2024.

BlaBlaGame project is created by the team of highly-experienced developers.

WHAT WE OFFER

GAMES PROTECTION

All the created games are securely protected with SHA-256 algorithm.

REFERRAL PROGRAM

Three-level referral program: earn a reward in crypto from each won game of your referrals. Earn reward in BLA for buying BLA-tokens of your referrals of the first level.

REWARD SYSTEM

Multi-level reward system depending on users rating on BlaBlaGame.

BANK OF DAILY AND MONTHLY BONUSES IN CRYPTO

Best players are rewarded daily and monthly.

RATING SYSTEM

Become a BlaBlaGame champion in ten-level rating system.

LOW FEES

Low fees for Rock-Paper-Scissors players

BLABLA TOKEN ECONOMICS

For sale	Bonuses	Team tokens
70%	20%	10%

- **70% of BLA tokens** are for sale
- **20% of BLA tokens** are for bonuses (this is a referral reward for the users whose referrals bought BLA-tokens)
- **10% of BLA tokens** are Team tokens. These BLA tokens are locked for one year once the token sale ends.

BLABLA TOKEN OVERVIEW

Ticker	BLA
Blockchain type	Binance Smart Chain
Standard	BEP20
Total supply	80 000 000
Softcap	1 500 000 USDT
Hardcap	Until 70% of token sold
Current round	1
Current price	\$0.1

ALLOCATION OF RAISED FUNDS

CASHBACK

Cashback is one of stimulating measures for the players of Rock-Paper-Scissors game. The idea is the following: BlaBlaGame charges minor fee from your won games in Rock-Paper-Scissors game which will be your cashback reserve (current cashback amount is displayed in your account). Cashback is paid out daily in the end of the day (11:59:59 p.m. UTC-time) in case you won at least one game in Rock-Paper-Scissors this very day.

In case you lose all the funds in battles in Rock-Paper-Scissors game (but you had win in the games this day), you will be paid cashback reserve in the end of the day (11:59:59 p.m. UTC-time) which could give you a chance to play again the next day using these funds. The more games you win, the more cashback you will receive in the end of this very day :) Cashback is not credited for the lost Rock-Paper-Scissors games. Cashback rate for win in the game depends on user's rating level in BlaBlaGame system (the lowest – for 'Beginner'; the highest for – 'To the Moon' level). Check the ["Rating"](#) page in your account to find your current cashback rate.

BANK OF DAILY AND MONTHLY BONUSES

Idea. Bank of daily and monthly bonuses in the next stimulating instrument of BlaBlaGame players in Rock-Paper-Scissors game.

Reward places

- Only best five players are rewarded in daily bank of bonuses.
- Ten best players are rewarded in monthly bank of bonuses.

Fees

- **0.4% from the total** of any won game in Rock-Paper-Scissors is deposited to the daily bank of bonuses in certain cryptocurrency;
- **0.1% from the total** of any won game in Rock-Paper-Scissors is deposited to the monthly bank of bonuses in certain cryptocurrency.

Pay out schedule of bonuses

- **Bank of daily bonus** is paid out at the end of each day at 11:59:59 p.m. UTC-time in certain cryptocurrency.
- **Bank of monthly bonuses** is paid out in the last day of each month at 11:59:59 p.m. UTC-time in certain cryptocurrency.

DISTRIBUTION OF REWARDS IN BANKS OF BONUSES

BANK OF MONTHLY BONUSES

Place	Reward
1 place	30% from the total of the bank of monthly bonuses in certain cryptocurrency
2 place	20% from the total of the bank of monthly bonuses in certain cryptocurrency
3 place	15% from the total of the bank of monthly bonuses in certain cryptocurrency
4 place	10% from the total of the bank of monthly bonuses in certain cryptocurrency
5 place	8% from the total of the bank of monthly bonuses in certain cryptocurrency
6 place	6% from the total of the bank of monthly bonuses in certain cryptocurrency
7 place	5% from the total of the bank of monthly bonuses in certain cryptocurrency
8 place	3% from the total of the bank of monthly bonuses in certain cryptocurrency
9 place	2% from the total of the bank of monthly bonuses in certain cryptocurrency
10 place	1% from the total of the bank of monthly bonuses in certain cryptocurrency

BANK OF DAILY BONUSES

Place	Reward
1 place	45% from the total of the bank of daily bonuses in certain cryptocurrency
2 place	25% from the total of the bank of daily bonuses in certain cryptocurrency
3 place	15% from the total of the bank of daily bonuses in certain cryptocurrency
4 place	10% from the total of the bank of daily bonuses in certain cryptocurrency
5 place	5% from the total of the bank of daily bonuses in certain cryptocurrency

REFERRAL PROGRAM

BlaBlaGame invites everyone to take part in the referral program and receive referral rewards. The description of this paragraph is made in question-answer form to deliver all aspects of BlaBlaGame referral program to the users.

What are the types of referral program on BlaBlaGame?

- **Game referral rewards.** You will earn a reward from your referrals for winning the games in Rock-Paper-Scissors game. Note that this is a three-level referral program and it is valid for your first-level, second-level and third-level referrals.
- **The referral rewards in BLA-tokens for buying BLA-tokens of your first-level referrals** (this is a limited referral program). Note that this referral reward program is valid only for your first-level referrals.

What is a three-level referral program for winning the games in Rock-Paper-Scissors game by your referrals?

Example: you invited John to BlaBlaGame using your referral link. John invited Michael to BlaBlaGame using his referral link. Michael invited Thomas to BlaBlaGame using his referral link. In this referral structure your referrals:

- First-level referral: John
- Second-level referral: Michael
- Third-level referral: Thomas

You will earn a referral reward for each won game in Rock-Paper-Scissors game by John, Michael and Thomas. Great, is not it?

How to use the referral program to invite friends or new players to BlaBlaGame?

You need to send your referral registration link to your friends to sign-up in the BlaBlaGame project or place a referral banner on your platform (e.g. blog, website, etc.) using the HTML-code. Once the friend used your referral link to sign-up and confirmed his account via email, the referral will be displayed in the [“My referrals”](#) section.

What does the referral reward rate depend on for winning the games by your referrals in Rock-Paper-Scissors game on BlaBlaGame?

The referral reward rate for winning the games in Rock-Paper-Scissors game depend on your rating level on BlaBlaGame. The lowest referral rewards are for 'Beginner' level and the highest are for 'To the Moon' one. Please check the ["Rating"](#) page for more details.

What is a referral reward currency for winning the games by my first-level, second-level and third-level referrals in Rock-Paper-Scissors game?

The referral reward currency depends on the currency of the game that was used in the specific Rock-Paper-Scissors game. If the game currency was Tether (USDT) and your referral won this Rock-Paper-Scissors game, you will earn a referral reward in Tether (USDT). If the game currency was BlaBlaGame token (BLA) and your referral won this Rock-Paper-Scissors game, you will earn a referral reward in BlaBlaGame token (BLA), etc.

How does the referral program for buying BLA-tokens work?

According to WhitePaper, some BLA tokens are reserved as referral bonuses for buying BLA-tokens by your first-level referrals during pre-sale (this is a limited referral reward program). For example, if you invited John to BlaBlaGame and he bought BLA-tokens on BlaBlaGame during pre-sale, you will earn a referral reward in BLA-tokens. The referral reward rate is from 5% to 14% from the amount of tokens which were bought by your first-level referral John. The referral reward rate depends on your rating level on BlaBlaGame. The lowest referral rewards are for 'Beginner' level and the highest are for 'To the Moon' one. Please check the ["Rating"](#) page for more details.

Note that the referral program for buying BLA tokens is not valid for your second-level and third-level referrals. The referral program for buying BLA tokens is valid only for buying tokens by your referrals of the first-level only

FEES FOR PLAYERS

User's rating	Total system fee for win in the game (i1)	Distribution of the total system fee for win in the game		
		Cashback reward fee for win in the game (i2)	Referral reward fee (i3)	BlaBlaGame reward fee
 Beginner  BLA token . . . 2.2%  Tether . . . 3%	0.05%	1 level: 0.15% 2 level: 0.07% 3 level: 0.06%	2.67% - in USDT 1.87% - in BLA-token	
 Amateur  BLA token . . . 2.2%  Tether . . . 3%	0.1%	1 level: 0.2% 2 level: 0.09% 3 level: 0.07%	2.54% - in USDT 1.74% - in BLA-token	
 Student  BLA token . . . 2.2%  Tether . . . 3%	0.15%	1 level: 0.25% 2 level: 0.11% 3 level: 0.08%	2.41% - in USDT 1.61% - in BLA-token	
 Professor  BLA token . . . 2.2%  Tether . . . 3%	0.2%	1 level: 0.3% 2 level: 0.13% 3 level: 0.09%	2.28% - in USDT 1.48% - in BLA-token	
 Entrepreneur  BLA token . . . 2.2%  Tether . . . 3%	0.25%	1 level: 0.35% 2 level: 0.15% 3 level: 0.1%	2.15% - in USDT 1.35% - in BLA-token	
 King  BLA token . . . 2.2%  Tether . . . 3%	0.3%	1 level: 0.4% 2 level: 0.17% 3 level: 0.11%	2.02% - in USDT 1.22% - in BLA-token	
 Lord  BLA token . . . 2.2%  Tether . . . 3%	0.35%	1 level: 0.45% 2 level: 0.19% 3 level: 0.12%	1.89% - in USDT 1.09% - in BLA-token	
 Overlord  BLA token . . . 2.2%  Tether . . . 3%	0.4%	1 level: 0.5% 2 level: 0.21% 3 level: 0.13%	1.76% - in USDT 0.96% - in BLA-token	
 VIP  BLA token . . . 2.2%  Tether . . . 3%	0.45%	1 level: 0.55% 2 level: 0.23% 3 level: 0.14%	1.63% - in USDT 0.83% - in BLA-token	
 To the Moon  BLA token . . . 2.2%  Tether . . . 3%	0.5%	1 level: 0.6% 2 level: 0.25% 3 level: 0.15%	1.5% - in USDT 0.7% - in BLA-token	

i1 – charged from the total amount of the game from the winner of the game. Calculated from the total amount of the game.

i2 – Cashback fee is charged from the total amount of the game from the player who won the game. Cashback paid out to the player in the end of the day.

i3 – reward fee from your referrals of the 1 level, 2 level and 3 level. Calculated from the total amount of the game.

Note that the total amount of the game is the sum of the creator's bid and his rival one.

Example: creator makes a game bid for 100 BLA tokens. The rival plays this game with 100 BLA tokens. The total amount of the game is 200 BLA tokens.

LEGAL DISCLAIMER AND RISKS

This document is a vision document and should not be considered a specification. It is not a promotional material, reflecting the fact of issuance of securities and calling for investment in the sense in which it understands the law on securities. BLA token does not give its holders ownership of a part of any segment of the public or private market. The main purpose of the BLA token existence is its use in the BlaBlaGame project. The sole purpose of this document is to present the BlaBlaGame project to potential holders of tokens in such a way that they can make reasonable and informed decisions regarding the purchase of BLA tokens.

No advice

Just like any blockchain technology, acquisition of BLA tokens is associated with a high level of financial risk. All investments are done at your sole decision, and you are solely responsible for assessing all potential investment risks as well as doing your due diligence prior to the time of investment. Consult your advisors before making a decision to purchase any of BLA tokens.

No offer of securities

BlaBlaGame project is not intended to constitute securities in any jurisdiction. This Whitepaper does not constitute a prospectus nor offer document of any sort and is not intended to constitute an offer or solicitation of securities or any other investment or other product in any jurisdiction. All statements, project technical information and other declarative information contained in this document cannot be considered as guarantees or promises to the holders of BLA tokens. Such data may not be considered as a financial prediction of any. Forward-looking statements are based on publically available statistics as well as the proposals and forecasts of the initiators of token sale BlaBlaGame. Despite the fact that the organizers believe the forward-looking statements are reasonable and implementable, BlaBlaGame cannot guarantee to buyers of tokens the correctness of such forward-looking statements, as well as the intended results of the company's activities specified in them. BlaBlaGame will do everything in their power to fulfill predictions listed in the roadmap in good faith to the best of their ability.

Translations

This Whitepaper and related materials are originally issued in English. Any translation is for reference purposes only and is not certified by any person.

If there is any inconsistency found between a translation and the English version of this Whitepaper, the English version prevails. Unless otherwise stated, all references to “\$” and “dollars” in this Whitepaper pertain to United States dollars. This Whitepaper has not been reviewed by any regulatory authority in any jurisdiction.

The risk of losing access to BLA tokens in case of loss of private keys

A private key or a combination of private keys is required to manage BLA tokens stored in your digital wallet. The loss of private keys connected to your digital wallet automatically leads to the loss of access to BLA tokens. In addition, if any third party gains access to your private keys or data to enter your wallet, access to your BLA tokens can also be lost. Any technical issues related to the wallet on which you store BLA tokens, including your own wrong wallet maintenance actions, can also lead to the loss of BLA tokens. We strongly suggest you take every safety measure available to you in order to protect your wallet, your private keys and your BLA tokens. No BLA tokens will be re-issued in case of the loss or a theft.

Binance Smart Chain Protocol Use Risk

Since BLA tokens and the entire BlaBlaGame project are based on the Binance Smart Chain protocol, any possible failure of the Binance Smart Chain protocol can adversely affect the ecosystem of BlaBlaGame and BLA tokens, which are in circulation within this system. The development of cryptography and technological advances in blockchain technology in general can also pose a potential threat to BLA tokens and the BlaBlaGame ecosystem, including token functionality and value.

Risk of mining attacks

BLA tokens are at risk of miner attacks during the confirmation of token transactions in the Binance Smart Chain, including the risk of double-spending attacks, MMP attacks, and selfmining mining attacks. Any successful attack of this type puts the entire BlaBlaGame ecosystem at risk.

Risk of crack and Security Protocol Vulnerability

Hackers and other organized crime groups may try to hack the BlaBlaGame ecosystem and assign BLA tokens to themselves in various ways.

The risk associated with unpredictable actions of regulators and law enforcement agencies

Due to the imperfection of the legal framework, the legal status of BLA tokens

and blockchain technologies is not clear in some jurisdictions. It is impossible to predict any law enforcement actions regarding the operation of the BlaBlaGame ecosystem and the handling of BLA tokens should the legal field change in such jurisdictions. It is also impossible to foresee possible changes in legislation made by legislative bodies of various jurisdictions related to the regulation of the blockchain sphere. The possibility of such changes represents a potential risk for owners of BLA tokens. This may include, for instance, an updated requirement by a certain jurisdiction to have BlaBlaGame conduct a compulsory KYC/ AML procedure, where it was not previously required, in order to finalize the transaction.

Taxation Risk

The tax component of the acquisition of BLA tokens is not clearly defined. Your purchase of BLA tokens can lead to adverse tax consequences, including income tax or other type of tax.

Risk associated with the development and maintenance of the BlaBlaGame ecosystem

BlaBlaGame Ecosystem is under development and may be subject to significant changes and corrections in terms of technical operation up to the full completion of the development of the platform. The effectiveness of the BlaBlaGame ecosystem development largely depends on the number of BLA tokens sold. Poor token sale results can lead to a shortage of the resource base required for the full development of the ecosystem. In case the project team does not collect the necessary amount required for product development (soft cap), all collected funds will be returned back to the investors, minus the commission for such transaction. The risk of liquidating a company or ecosystem. One cannot rule out the possibility that for some reason, including an unfavorable change in the exchange rate of currencies such as ETH, BTC or other cryptocurrencies, a drop in the level of functional utility of BLA tokens beyond our competence may occur. Legal problems and intellectual property issues of the BlaBlaGame ecosystem can also disrupt the operation of the BlaBlaGame platform or completely liquidate the company.

Details for buyback program

There are no specific details for buyback program for BLA token. It is supposed that the buybacks are to be made from fees (Rock-Paper-Scissors game fees, withdrawal fees, etc) generated inside or outside the BlaBlaGame system. The buybacks can be made by any person from BlaBlaGame staff. Buybacks can be

made even from their (BlaBlaGame staff) personal accounts on exchanges where the BLA token is traded or exchanged. Further potential burning details are to be provided to the community publicly with the links to blockchain explorers.

Other unforeseen risks

Cryptographic BLA tokens are a new, technologically not proven technology. In addition to the risks associated with the factors listed above, there are some risks associated with the acquisition, ownership and use of BLA tokens. Such risks may represent various options or combinations of risks specified above. BlaBlaGame may change, delete or add any information in this document or in documents reflecting the terms and conditions of its websites or applications, at any time at its discretion and without notifying the holders of BLA tokens. Any such changes will take effect immediately after the publication of the revised versions of such documents. You are solely responsible for timely acquaintance with possible changes in them. Your continued use of the Site and/or Services after any such changes implies your acceptance of them. There is a risk of losing all invested funds. If you do not agree with any such changes, do not continue to use the Site and/or the Service. All concepts and technical proposals outlined in this document are working hypotheses. This Whitepaper may be revised at the company's discretion at any time for the purposes of clarifying the vision and communication it better to the potential investors. An updated version will be provided for downloading on website. It is a user's responsibility to verify that the most recent Whitepaper is referenced prior to the time of investment. Buying BLA tokens indicates your agreement with Terms and Conditions and Privacy Policy found on website.
